GENERAL RULES FOR ALL PULLERS IN ALL CLASSES

1. **Safety First.** Always think safety. Always act safely. Drive slow, look around, think of others. Drive like your father and mother are watching you. **All contestants enter at your own risk.**
2. **Prize Money and/or Trophies** will be awarded to the top finishers depending on the number of entries.
3. **Registration** cards must be completely filled out and signed. Only one pull per class per tractor or truck. Two hooks per tractor if time allows. (Plus one hook in team class.)
4. **Order of pull** within each class will be in reverse order of registration. (Last one registered will pull first.) The pulling order will be posted at the staging area. All drivers should be in line and ready to pull at the start of their class. Time is only allowed to add weights between classes.
5. **Age of Driver** must be 12 years or older in paced tractor classes. Driver 12 - 18 years of age must have written permission from parent or legal guardian to enter paced tractor classes and present a farm safety course certification. Driver must be 18 or older to drive in any unpaced classes.
6. **Powder Puff Classes** are for females only. To share a tractor, the Powder Puff Classes allow different ladies to pull the same tractor in the same class. No other classes allow this sharing.
7. **Fenders** are mandatory. **Kill switch** and **wheelie bars** are recommended but not mandatory except in unpaced classes. Wheelie bars must be strong enough to hold weight of tractor when tested. If no wheelie bars, tractor will be flagged to stop when the front wheels exceed a safe height as determined solely by the Track Official (about knee high).
8. **Tires** may be mounted forwards or backwards. All tires must be on the tractor or truck. No tracks, duals, or chains allowed. For tractors, factory steel wheels allowed but must pull last.
9. **Drawbar Height** not to exceed 20" for all tractor classes. Drawbar must be at least 18" back of center of the rear axle and rigid in all directions. Hitch must be equipped with a 2 1/2" clevis or 2 1/2" pulling eye. No floating drawbar. Two or three point hitch, if used, may not rise at all during the pull. **Drawbar Height** not to exceed 26" for all truck classes.
10. **Scale** is available to weigh tractor or truck as many times as necessary before the hook. Scale overweight allowance of 50#.
11. **Tractor Tracks Eliminator**. Everyone gets an honest hook without "dropping the pan." Computers on the eliminator automatically send instantaneous speed and distance measurements to the track announcer and to the digital scoreboard at the end of the track.
12. **Paced Classes** have an extremely loud air horn system linked directly to the main computer in the cab of the eliminator. It will honk automatically when the actual ground speed exceeds the pace set by the rules and it stops when the ground speed is reduced enough to fall under the pace setting. At the finish line of the track is an extra large digital display updated by computer four times a second which is visible to the tractor driver and the spectators while the puller is driving down the track. The tractor driver can honk the horn as necessary to adjust tractor engine RPM's until the 100 foot mark (double cones), but if the horn honks, even slightly, after the eliminator operator goes past the double cones, the driver is disqualified.
13. **Chain** must be tightened slowly to get the green light. The pull must start with no jerks. All tractors and trucks must be in neutral while hooking up.
14. **Track Officials** have the right to stop a tractor or truck at any time and their decision is final. Track Officials or Pull Organizers have the right to reject or disqualify any entry at any time before, during, or after the pull.
15. **Track Boundary** violation occurs when any wheels of the tractor or truck touch the side boundary line. Pull will be measured from that distance if the driver stops promptly when flagged.
16. **Driver's Butt** must remain in seat at all times. Leaning is allowed.
17. **Pull** stops when the forward motion of the eliminator stops. Weights must be secured. If anything falls off of tractor or truck before it is unhooked, the hook is disqualified. No refunds.
18. **Driver's Meeting** rule changes made by Pull Officials at the Driver's Meeting take priority over these printed rules.
19. **No Crybabies.** Treat the volunteer workers with respect. They aren't getting paid. They are contributing their time. Talk to a track official if you have any questions or concerns.
20. **Have Fun.**
